THIS IS A TARIFF LEVEL OF CARRIER LIABILITY - IT IS NOT INSURANCE

You must select, in your own handwriting, one of the following two options for your shipment. The option you select establishes your mover's maximum liability for your goods, subject to the rules contained in your mover's tariff.

OPTION 1: FULL (REPLACEMENT) VALUE PROTECTION: If any article is lost, destroyed or damaged while in your mover's custody, your mover will either 1) repair the article to the extent necessary to restore it to the same condition as when it was received by your mover, or pay you the cost of such repairs, or 2) replace the article with an article of like kind and quality, or pay you for the cost of such replacement. An additional charge applies for the option.

To select Option 1, you must write, on the line below, either a lump sum dollar amount for the value of your shipment that may not be less than \$2000, or an amount per pound that may not be less than \$4.00 () per pound, whichever is greater.

You must also select one of the following deductible amounts that will apply for your shipment.

No Deductible () Initial \$250 Deductible () Initial

OPTION 2: Released Value of 60 Cents Per Pound Per Article: If any article is lost, destroyed or damaged while in your mover's custody, your mover's liability is limited to the actual weight of the lost, destroyed or damaged article multiplied by 60 cents per pound per article. This is the basic liability level and is provided at no charge. It is considerably less than the average value of household goods.

NOTICE

LIMITATION OF LIABILITY ON PRESSBOARD, PARTICLE BOARD AND/OR ENGINEERED WOOD FURNITURE

Furniture manufactured from pressboard, particleboard, and/or engineered wood is designed to be moved from the manufacturer to the retailer and then to the end user unassembled. It is not constructed to withstand the normal stress of a move as an assemble unit. Most is not designed with the extra wood structural pieces to adequately brace the unit for movement out of or into a residence, nor the normal truck vibration even in air-ride trailers. Usually chips and dents are not repairable. Surface Impressions can be made on the furniture when writing on a single piece of paper. Assembly instructions frequently suggest that the connecting hardware pieces be glued in place. This does not significantly improve the structural integrity of the pieces, but does make disassembly impossible without creating substantial, un-repairable damage.

- Option 1- I/we choose to disassemble all pressboard, particleboard, and/or engineered wood furniture prior to the move. I/we assume all responsibility for damage to the pressboard, particleboard, and/or engineered wood furniture, which may occur during the disassembly of the furniture.
- Option 2- I/we have engaged the services of another individual or company to disassemble all pressboard, particleboard, and/or engineered wood furniture prior to the move. I/we assume all responsibility for damage, which may occur to the pressboard, particleboard, and/or engineered wood furniture during the disassembly of the unit(s).
- Option 3- I/we am/are tendering furniture constructed of pressboard, particleboard, and/or engineered wood furniture fully assembled as part of our move. I/ we understand that any claims for damages to the pressboard, particleboard, and/or engineered wood furniture maybe denied due to inherent vice, based upon the fact that fully assembled pressboard, z particleboard, and/or engineered wood furniture is inherently susceptible to damage as outlined above.
